### **Principles of the UMAP Exchange Program**

1. UMAP programs operate between individual accredited higher education institutions, or consortiums of institutions, on the basis of mutual acceptance of the appropriateness of national accreditation determinations. All public or private higher education institutions located in countries or territories participating in UMAP, and recognized in the participating home country/territory and administrative region as nationally accredited, or as reputable providers of higher education courses, are eligible to participate in UMAP programs.

#### **2. Definition of UMAP participation**

- 2.1 Host and Home universities need to ensure credit recognition prior to exchange. Slight change will be allowed after starting class.
- 2.2 Use of UCTS as conversion scale for credit is necessary in principle.
- 2.3 Selection of courses and universities depends on each university.
- 2.4 Participating universities may include institutions which have a plan to make use of UCTS for their student exchange and have put into practice as a pilot project.

#### **3. The Exchange Agreement**

- 3.1 Most agreements negotiated under UMAP will be bilateral between institutions, but agreements between governments or systems or combinations of parties can also be appropriate.
- 3.2 For recognition as a UMAP project an agreement should take proper account of the obligations of home and host institutions.

#### **Home Institutions will:**

- Select students and staff to participate
- Approve the study programs, including language courses/training, to be undertaken by participating staff and students
- Recognize work completed overseas for credit towards awards at the home institution
- Determine the level of financial support to be given to participating students and staff
- Provide appropriate preparatory courses for their students and staff prior to their departure

#### **Host Institutions will:**

- Provide the agreed study programs for participating staff and students
- Provide appropriate counseling and other support services to participants
- Assist participating students and staff to obtain accommodation at reasonable cost
- Ensure that appropriate health care arrangements are made for participating staff and students
- Take action with the appropriate authorities in the host country to facilitate the issue of visas and compliance with other entry requirements
- Ensure appropriate access by participating students and staff to libraries, laboratories and similar facilities
- Provide any necessary language training

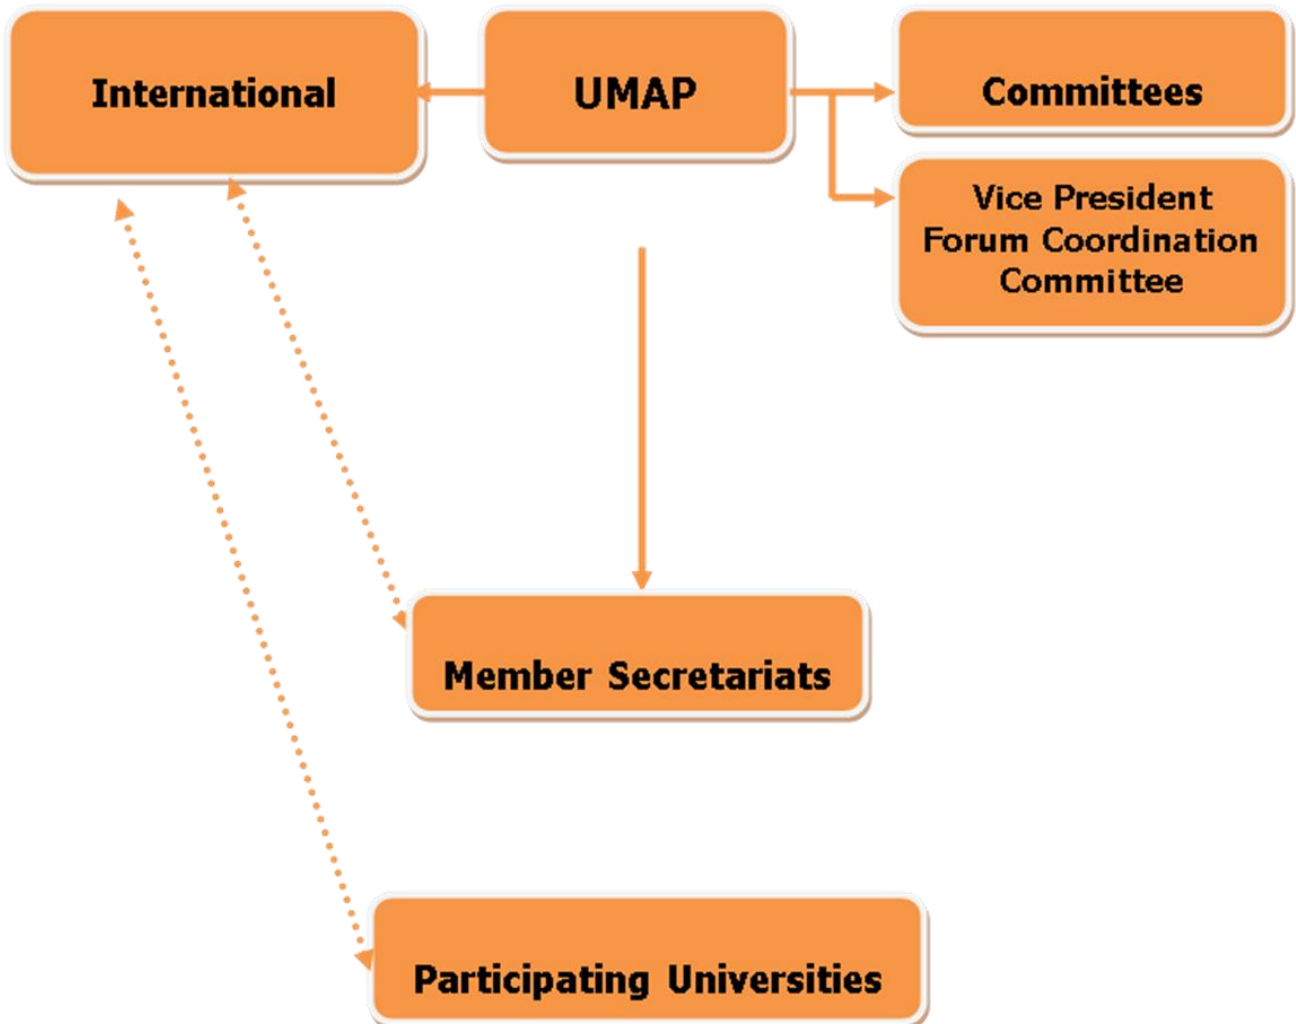

#### **4. Funding Arrangements**

- 4.1 Institutions participating in UMAP need to reach agreement on funding arrangements.
- 4.2 Matters to be considered may include:
  - Whether students in receipt of scholarships, allowances etc. would be entitled to retain these benefits whilst studying in another country,
  - Whether institutions would be able to waive fees for students coming from overseas, on reciprocal terms,
  - Whether governments would fund the additional administrative costs which institutions would incur through participation in UMAP, the forms of additional financial support that governments would make available to subsidize the costs of staff and students studying

overseas under UMAP, the extent to which private funding may be available support participation in UMAP and whether institutions would be able to access development assistance funds to assist participation in UMAP..
